

International Congress of Mathematicians 2014 Satellite Conference
organized in partnership with the Clay Mathematics Institute

Holomorphic Dynamics in One and Several Variables

August 23-26, 2014

Gyeongju, South Korea

Speakers:

Taeyong Ahn, POSTECH
Eric Bedford, Indiana University / Stony Brook University
Romain Dujardin, Université Paris Est Marne La Vallée
Adam Epstein, University of Warwick
John Erik Fornæss, NTNU Trondheim
John Hubbard, Cornell University
Hiroyuki Inou, Kyoto University
Jeremy Kahn, CUNY Graduate Center
Kyounghee Kim, Florida State University
Sarah Koch, University of Michigan
Misha Lyubich, Stony Brook University
John Milnor, Stony Brook University
Han Peters, University of Amsterdam
Pascale Roesch, Aix-Marseille Université
Nikita Selinger, Stony Brook University
Thomas Sharland, Stony Brook University
Mitsuhiro Shishikura, Kyoto University
John Smillie, Cornell University / University of Warwick
Sebastian van Strien, Imperial College London
Eva Uhre, Stony Brook University
Elizabeth Wolcan, Chalmers University of Technology

We are grateful to the Clay Mathematics Institute
and to the National Science Foundation for their
generous support of this meeting.

Organizers: Taeyong Ahn (POSTECH), Araceli Bonifant (University of
Rhode Island), Scott Sutherland (Stony Brook University).

Please see www.math.stonybrook.edu/koreadyn for details
