Course Page: You will find up to date information, homework, and announcements at  
math.stonybrook.edu/~bmcmillan/math122fall16/

Office Hours: Office hours are an invaluable resource, one that you really should use! You are welcome to attend any of the office hours held by either me or the TAs. In particular, if you can’t make your TA’s office hours, you should go to another TA’s.

My office hours this term are Monday and Tuesday 11:30am–12:30pm in 510 Simons Center and Thursday 1:30–2:30pm in the MLC. Your TAs for the course are Apratim Chakraborty, Nathan Chen, and Qianyu Chen. You can find their office hours at math.stonybrook.edu/office-hours

Textbook: The textbook for the course is Applied Calculus, 5th Edition by Hughes-Hallett et al.

Exams: The midterms will be held in class on 9/29 and 11/3. The final is Wednesday, Dec 14, 11:15am–1:45pm. Unfortunately, there will be no makeup exams, so you must be able to make those dates to take this course. Please let me know if you will need DSS accomodations well in advance of the first midterm.

Homework: Each week I will post homework questions on the course webpage and you will turn it in to your TA the following week at the beginning of section. The homework is graded for completion. You should think of it as practice for the quizzes.

Quizzes: There will be a quiz at the end of section each week. These are based heavily on the homework. If you complete (and understand) the homework from the previous week, you should do well on them. There will be no make-up quizzes. Instead, we will cancel your lowest 2 quiz scores at the end of term.

Grading Policy: Homework/Quizzes/Participation: 20%, Midterm 1: 25%, Midterm 2: 25%, Final: 30%.

Americans with Disabilities Act: If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Disability Support Services, ECC (Educational Communications Center) Building, Room 128, (631)632–6748. They will determine with you what accommodations, if any, are necessary and appropriate. All information and documentation is confidential. http://studentaffairs.stonybrook.edu/dss/index.html.

Academic Integrity: Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person’s work as your own is always wrong. Faculty is required to report any suspected instances of academic dishonesty to the Academic Judiciary. Faculty in the Health Sciences Center (School of Health Technology Management, Nursing, Social Welfare, Dental Medicine) and School of Medicine are required to follow their school-specific procedures. For more comprehensive information on academic integrity, including categories of academic dishonesty please refer to the academic judiciary website at http://www.stonybrook.edu/commcms/academic_integrity/

Critical Incident Management: Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of University Community Standards any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students’ ability to learn. Faculty in the HSC Schools and the School of Medicine are required to follow their school-specific procedures. Further information about most academic matters can be found in the Undergraduate Bulletin, the Undergraduate Class Schedule, and the Faculty-Employee Handbook.
