

# New Techniques in Birational Geometry

## GRADUATE MINI-SCHOOL AND WORKSHOP

### Workshop

April 7–11, 2015

### Mini-School

April 6, 2015

### Location

Simons Center  
Stony Brook University

### Organizers

Radu Laza  
Christian Schnell  
Jason Starr  
Claire Voisin  
Aleksey Zinger

### Website

<http://goo.gl/MalyK8>

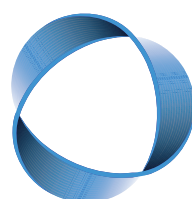

### Workshop Speakers

Nicolas Addington, Duke University  
Lev Borisov, Rutgers University  
Sebastian Casalaina-Martin, University of Colorado  
Ana-Maria Castravet, Northeastern University  
Ivan Cheltsov, University of Edinburgh  
Olivier Debarre, École Normale Supérieure  
Sergey Galkin, Higher School of Economics  
Ludmil Katzarkov, University of Vienna  
János Kollár, Princeton University  
Alexander Kuznetsov, Russian Academy of Sciences  
John Lesieutre, Institute for Advanced Study  
Valery Lunts, Indiana University  
Emanuele Macrì, Northeastern University  
Alena Pirutka, École Polytechnique  
Jason Starr, Stony Brook University  
Paolo Stellari, University of Milan  
Burt Totaro, University of California  
Yuri Tschinkel, Courant Institute  
Claire Voisin, University of Paris

Workshop and mini-school courtesy of Stony Brook Algebraic Geometry,  
with support from the Simons Center and the National Science Foundation.  
Limited funding available for graduate students and junior participants.
