MAT 211 – INTRODUCTION TO LINEAR ALGEBRA – SYLLABUS

Spring 2022, Section LEC 02 (55531)

Instructor: Class time & location	Artem Kotelskiy, artem.kotelskiy@stonybrook.edu, Math Tower 3-116. TuTh 11:30 am – 12:50 pm, Earth & Space 079. Fr 11am-12pm, Fr 1pm-2pm (via zoom: click to join). Fr 10am-11am (via zoom: click to chose instructor and join).	
Office Hours:		
MLC Hours:		
Textbook:	Otto Bretscher, Linear Algebra with Applications, Fifth edition	
Course Description:	Introduction to the theory of linear algebra with some applications; vector vector spaces, bases and dimension, applications to geometry, linear transformations and rank, eigenvalues and eigenvectors, determinants and inn products. The Tentative Schedule and the Major Topics to be covered at the end of the syllabus.	
Attendance:	Strongly strongly encouraged, but not mandatory.	
Gradescope:	We will use the platform https://www.gradescope.com/ for homeworks are exams; please register on that platform, and use the entry code "5VEVBI when registering, this will insure you will be added to the right course.	
Blackboard:	We will use blackboard for announcements. You should receive email notications whenever I send an announcement.	
Prerequisite:	C or higher in AMS 151 or MAT 131 or 141 or co-registration in MAT 1 or level 7 on the mathematics placement examination.	
SBC / Credits	STEM + / 3	

Grader:	Longzhen Chen, Longzhen.Chen@stonybrook.edu	
Office Hours:	W 5:00pm-6:00pm (via zoom: click to join) + by appointment	
MLC Hours:	F 3pm-5pm (via zoom: click to chose instructor and join).	

	Homework	14%
Grading Policy:	Midterm I	25%
Grading Foncy.	Midterm II	25%
	Final Exam	36%

Homework: Posted on gradescope weekly, with deadlines Wednesday 10pm each week. No late homework will be accepted, unless you have a strong excuse. Two lowest scores for homework will be dropped. *Collaboration is encouraged*, but you must submit your own write-ups. When you write up your homework, use complete sentences and write legibly.

Exams:	Two 55-minute exams will be given during the semester, in the normal class time and location; approximate midterm dates can be found in Tentative Schedule. A 2.5 hours comprehensive final exam will be given during the finals period, on May 11, 11:15am-1:45pm. No books, notes, calculators, or other electronic devices may be used during the exams, but at the end of the exam you will have to scan your exam and submit it to gradescope using your phone. You must bring your University ID card to all exams.
Makeup Exams:	Not possible. If a student misses a midterm exam with documented evidence, then the student's final exam grade will be substituted for the missed midterm. A student must sit the final exam at the scheduled time in order to receive a passing grade in the class.
Cheating:	Forbidden (obviously). This includes the use of websites where one can find solutions to homeworks.
Accomodations:	Once you make an arrangement with SASC, please let me know about it.

Questions, problems, suggestions: best to ask me during office hours or after classes, otherwise email me artem.kotelskiy@stonybrook.edu.

Tentative Schedule:

Week 01	1/24 - 1/28	1.1, 1.2
Week 02	1/31 - 2/04	1.3, 2.1
Week 03	2/07 - 2/11	2.2, 2.3
Week 04	2/14 - 2/18	2.4, 3.1
Week 05	2/21 - 2/25	3.2, 3.3
Week 06	2/28 - 3/04	3.4, Review
Week 07	3/07 - 3/11	Midterm I, 5.1
Week 08	3/14 - 3/18	No Classes (Spring Break)
Week 09	3/21 - 3/25	5.2, 5.3
Week 10	3/28 - 4/01	5.4, 5.5
Week 11	4/04 - 4/08	6.1, 6.2
Week 12	4/11 - 4/15	Review, Midterm II
Week 13	4/18 - 4/22	6.3, 7.1
Week 14	4/25 - 4/29	7.2, 7.3
Week 15	5/02 - 5/06	7.4 Review
Week 16	5/09 - 5/13	Final Exam

Major Topics:

Systems of Linear Equations Gauss Elimination and Row Echelon Form Vectors and Matrices Linear Transformations Matrix Multiplication, Inverse Matrices Image and Kernel of a Linear Transformation Subspaces of \mathbb{R}^n Linear Independence, Basis, and Dimension Coordinates Inner Product Spaces Projections Orthonormal Bases and Gram-Schmidt Orthogonalization **Orthogonal Transformations** Determinants **Eigenvalues and Eigenvectors** Diagonalization

Student Accessibility Support Center Statement: If you have a physical, psychological, medical, or learning disability that may impact your course work, please contact the Student Accessibility Support Center, Stony Brook Union Suite 107, (631) 632-6748, or at sasc@stonybrook.edu. They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential.

Academic Integrity Statement: Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty is required to report any suspected instances of academic dishonesty to the Academic Judiciary. Faculty in the Health Sciences Center (School of Health Technology and Management, Nursing, Social Welfare, Dental Medicine) and School of Medicine are required to follow their school-specific procedures. For more comprehensive information on academic integrity, including categories of academic dishonesty please refer to the academic judiciary website at http://www.stonybrook.edu/commcms/academic_integrity/index.html

Critical Incident Management: Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Student Conduct and Community Standards any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students' ability to learn. Until/unless the latest COVID guidance (https://www.stonybrook.edu/commcms/strongertogether/latest.php) is explicitly amended by SBU, during Spring 2022 "disruptive behavior" will include refusal to wear a mask during classes.

Learning objectives:

Learning Outcomes for "Pursue Deeper Understanding: Students must use the skills expected from their Versatility courses to study and practice them in greater depth, with further study applied to the area in which they are certified.

Standards for "Pursue Deeper Understanding: Certified courses must expect students to practice the skills they learned in their Versatility courses in greater depth. These courses must have prerequisites from among the Versatility categories and will typically be at the 200-400 level."
