International Congress of Mathematicians 2014 Satellite Conference
organized in partnership with the Clay Mathematics Institute

Holomorphic Dynamics in One and Several Variables

August 23-26, 2014　　　　Gyeongju, South Korea

Speakers:

Eric Bedford, Indiana University / Stony Brook University

Romain Dujardin, Université Paris Est Marne La Valée

Adam Epstein, University of Warwick

John Erik Fornæss, NTNU Trondheim

John Hubbard, Cornell University

Hiroyuki Inou, Kyoto University

Jeremy Kahn, CUNY Graduate Center

Kyounghee Kim, Florida State University

Sarah Koch, University of Michigan

Misha Lyubich, Stony Brook University

John Milnor, Stony Brook University

Han Peters, University of Amsterdam

Pascale Roesch, Aix-Marseille Université

Nikita Selinger, Stony Brook University

Thomas Sharland, Stony Brook University

Mitsuhiro Shishikura, Kyoto University

John Smillie, Cornell University / University of Warwick

Sebastian van Strien, Imperial College London

Elizabeth Wulcan, Chalmers University of Technology

NSF

CMI

Organizers: Taeyong Ahn (POSTECH); Araceli Bonifant (University of Rhode Island), Scott Sutherland (Stony Brook University).
