To get credit for an exam you may submit answers in one of two ways:

1. (Traditional) Fill in answers on the exam itself and turn into the TA.
2. (Electronic) Fill in answers on this answer sheet, photograph it, and email the image to your TA (email addresses are above).

Emails must be sent by the time specified by the TA. We prefer a PDF generated by the app GeniusScan, although other apps and file types may work as well. Submit a paper copy the first time you try this, until we know your electronic answers are legible.

Students who want to submit answers electronically should print this page ahead of time and bring it to class. You may not use your phone or computer until your exam questions have been collected.

The exam itself may not be photographed, recorded or kept by the student. The student may keep this answer sheet. In the case that both formats (paper and electronic) are submitted for a student, the electronic version will be the one graded and recorded.
