

Write down a dated fact (if possible, something that you find interesting) about each of the topics below. As usual, there will be 15 minutes to complete this quiz, but can do it at home. Your submission should be handwritten. The only requirement is that the fact you write is correct. The century is enough for dating your fact.

1. Mayan number system
2. Egyptian number system
3. Egyptian representation of fractions
4. Egyptian multiplication
5. Babylonian number system
6. Pythagorean Mathematics
7. Pythagoreans and incommensurable quantities
8. Euclid's Elements
9. Eratosthenes
10. Archimedes
11. Estimation of the value of π
